er's Affair for Col. Roosevelt.

RAILWAYS MAY NOT RAISE THEIR RATES

United States Government Files Petition Restraining Twenty-five Western Railroads From Increasing Freight Rates—Government Agent Alleges Conspiracy.

St. Louis, Mo., May 31.—With the firmest secrecy the Federal government's petition to enjoin twenty-five railroads west of the Mississippi river, from raising their freight rates, was filed at noon today in the Federal court, United States district judge, James C. Gray, filing the document with the proper notations. The suit was filed by Frederick H. Judson, employed by the department of state as special counsel, and Edwin P. Grover, of Washington, D. C.
Under Judson's explicit instructions the news of the filing of the document was withheld from reporters in St. Louis on the ground that District Judge David F. Dyer, acting as circuit judge, in the absence of the circuit judges in this district, should be kept in the dark until the petition had been filed with the court.
Immediately after filing the document, Judson took up the petition, and a train entered into a discussion with Assistant Attorney General E. P. Grover, of Washington, who is acting under Attorney General Wickham's directions. Grover telegraphed Judge Dyer last Sunday that he was on his way to St. Louis to file the petition. At St. Louis a legal holiday the petition had to wait until today. Not a single newspaper in this city after Judson's company had been arrested, had any knowledge of the petition.

In Manitoba and Saskatchewan. The Growth of Wheat Chilled.

Usually May sees the end of the unsettled weather, but this year it is hot and hot, but this year's conditions have been abnormal from the very early spring. In March, a heavy frost preceded early seeding. The first early crop of corn and alfalfa was killed by a great ice and snow storm. The wheat crop was a decided check. The present weather is a great help to the farmer, but the growth of wheat has been checked at the top with the coming of the frost. Vienna, June 1.—Large increases in the naval and military expenditures, as estimated, were announced by the minister of finance today, when he described the future requirements of the service to the finance committee of the Reichstag.
The minister said that the reduction of the term for military service, with the consequent increase in the number of recruits, would make necessary a permanent addition to the military expense of at least \$15,750,000 annually. The building of Dreadnoughts to replace the old warships would require an outlay of \$62,000,000. Provision for the expenditure would be made through loans.

THE IMMIGRATION FOR APRIL 50,000

influx for April, 1910, Largest on
Record—Majority of Settlers
From U.S.

Ottawa, Ont., June 1.—The statement made in an evening paper that the government has under consideration the making of a grant to assist Baskin and McCord, the Canadian aviators. It is not intended to put these aviators on the map, but if it is encouraged by the people, it will be a condition that the machines may be utilized for the mutual benefit of the makers and the militia.

The privilege of executive amnesty is being somewhat extensively exercised in Canada. In the last fiscal year 22 prisoners were released on ticket of leave from the penitentiary, jails and reformatories of the country. This is double the figure of previous years.

Census Next Year.
Nine thousand men will be called to take census of not only 2,000,000 of enumeration, embodying some changes from the previous census, but also to be called for the census of 1911. The number of those employed in the work before the census for 1911, the first of those employed in the work will be very little more than in 1901, the date being to assign, after areas to each enumerator.

The growth of the work will operate towards an increased representation, but this will depend upon the increase in Quebec and the east. Instructions have been sent from the militia department to permit that batteries of field artillery equipped with eighteen pounder guns will be allowed six horses per gun instead of four formerly.

The immigration figures for the month of April have not been completed yet, but it is known that they have exceeded all records in any previous month, and will total about fifty thousand. Of this number approximately twenty thousand came from across the border.

His Excellency Earl Grey has received the following message from Lord Gladstone, governor general of South Africa, in reply to a message of congratulation on the first anniversary of the first South African confederation. The government of the Union of South Africa highly appreciate the congratulations of the Dominion of Canada, on the consummation of the South African Union, and on behalf of the people of South Africa expresses its grateful thanks.

SCORES THE MUCKRAKERS.

House of Representatives Chaplain
Delivers Strong Prayer.

Washington, D.C., June 1.—The chaplain of the House of Representatives, Rev. Henry S. Condit, in his opening prayer yesterday, scored the muckrakers, newspaper and press men, "in the given" on the platform and in the pulpit, and asked blessing on the real reformers.

In part he prayed: "We bless thy holy name for the upward look, the higher resolve, the broader faith, the brighter hope, the stronger love, the firmer step, and the onward march, most which characterize our age in spite of the aberrations, the agonies, the sorrows of the present, the growls of the muckrakers and the cry of the muckrakers in the press, on the platform and in the pulpit. We most fervently pray for the real reformers of the true statesmen and the pure patriots, the noble, generous, high-minded, sincere, and high-minded statesmen, who may increase and lead us onward to yet greater 'republicanisms'."

TEDDY'S GRATUITOUS ADVICE IS AMUSING

London, June 1.—The London Morning papers editorially treat Mr. Roosevelt's speech at the Guild hall yesterday without comment, and most candid advice with rather a wistful spirit, as coming from a privileged person.

The Standard takes it as a compliment to Anglo-American solidarity, but doubts whether it would be wise for a British premier to imitate the performance in Germany or in Washington.

The Conservative papers are inclined to welcome the advice. It is put candidly but may do good. The Telegraph thanks Mr. Roosevelt for his bitter words, but believes that the British people are sensible enough to swallow the dose. The Daily News alone seriously takes Mr. Roosevelt to task for "a series of international malaproposities."

Registration in Manitoba.
Winnipeg, June 1.—It was announced at noon that registration in Winnipeg and Brandon will be held June 15 to 17. Clerks will sit June 15 to hear objections and the court of revision will sit June 28.

TO ELECTRIFY C.N.R. TO LAKE WABAMUN

Negotiations Under Way for Purchase of C.N.R. Branch by
Raymond Brunel

The electrification of the Canadian Northern railway company's line to Stony Plain and the completion of the construction of the grade of this line, which at the present time extends to Lake Wabamun, sixty miles west of the city, is a project within the next two years. R. Brunel, promoter of the railway, whose branches to operate in connection with the city's system the railway will voice on June 28, is the man behind the project.

Some months ago Mr. Brunel was in conference with an eminent electrical engineer who suggested the securing of this branch of the C.N.R. and the electrifying of it.

Negotiations have already progressed some distance in the matter. The C.N.R. in its main line through the city is not expected to use the grade between here and Wabamun by reason of the fact that the Grand Trunk Pacific crosses it half a dozen times which makes it unsuitable for a main line.

It is further stated that the C.N.R. will be willing to dispose of this branch, which, since the opening of the Grand Trunk Pacific, has not been operated as a profit.

If Mr. Brunel is successful in negotiating this scheme it will mean an expenditure of a large sum of money for the city, and in addition will provide the city with rail connection with Lake Wabamun which is now considered to be the coming summer resort for this city.

BRITISH INDUSTRIES.
American Protectionist Says Conditions Unfavorable.
New York, N.Y., June 1.—Charles A. Moore, head of Manning Maxwell and Moore, railroad equipment makers, chairman of the board of the Pan Northern Trust company, and prominent in protective tariff circles, returned from England yesterday, and said industrial conditions in England are poor. He said: "Industrial conditions in England are not as good as on the continent. In France they are better, and in Germany still better, but England has been much disturbed by the political situation and was so some time prior to the King's death. The industrial conditions throughout Great Britain are far from satisfactory. Prominent men in industrial enterprises feel the existing condition keenly. It reacts all through, and especially towards American securities."

FATHER CHARGES SON WITH STABBING HIM

Peter Schultz, Sixteen Year Old Boy
of Stony Plain, on Trial at Criminal Assizes on Charge of Wounding
His Father in Family Quarrel.

A Spruce Grove family quarrel, alleged to have come to a head in a stabbing affray on Sunday morning, last, occupied the attention of the supreme court yesterday afternoon in the shape of a charge of wounding brought against young Peter Schultz.

The complainant being Jacob Schultz the father of the lad, and a German householder in the Stony Plain district for the past twenty years. Peter Schultz according to his father, was seventeen in July of last year. His mother dwells in court that the boy's seventeenth birthday was in July of this year. The importance of the point lies in the fact that should the lad be convicted of the offence of which he is suspected, whether he is sent to the penitentiary or the reformatory depends upon his family.

Threatened His Family.
The Schultz family had not been getting on very well together for some time. The father had been away from home a great deal when he came home, according to the evidence of his

wife and two sons, he usually raised a rumpus, cursing and threatening his wife and children, so that they were greatly in terror of him. Three times he was brought before a magistrate for assaulting his wife, and three times he was fined. The last time he was fined, he had been drinking a great deal and frequently came home drunk.

For a year past he had been an invalid, and whether from whiskey or a weak heart was a point of difference of opinion between witnesses and counsel, at the cross-examination of Mr. Schultz by the counsel for the defence.

Two Different Versions.
He had come home as usual on Saturday night from a neighbor's place where he had been working on some months, and went to bed without seeing his wife or family. On getting up next morning and going down stairs, according to Mr. Schultz's testimony, without the slightest provocation, his wife and two sons assaulted him and put him out of the door of the kitchen into the back yard where his son Peter jumped on his stomach and strangled him in the chest with a knife.

The mother and Peter Schultz and Mike Schultz told quite a different story of the episode. All the evidence for the prosecution and most of that for the defence was put in and the case will be concluded at this morning's session of the court.

C. A. Grant is appearing for the defence and E. B. Cogswell is conducting the prosecution.
